Peterson Chase General Engineering Construction Inc. Mr. Kali Goglanian 16351 Construction Circle West Irvine, CA 92606

RE: Proposal to Conduct Environmental Consulting Services (Preconstruction surveys Desert tortoise, nesting birds and plants; ESA fence installation and construction monitoring [Contract No. 08-1F9204; 08-RIV-10, 60 and 86-Var; Project ID 0815000059; Federal-Aid Project ACSB1NH-X065(114)E]

Dear Mr. Goglanian:

Gonzales Environmental Consulting, LLC (GEC) is pleased to provide this rate sheet for biological monitoring regarding the state highway project in Riverside County at Various Locations in District 08 on Routes 10, 60 and 86 [Contract No. 08-1E5824; 08-SBd-95-65.4/66.0; Project ID Contract No. 08-1F9204; 08-RIV-10, 60 and 86-Var; Project ID 0815000059; Federal-Aid Project ACSB1NH-X065(114) E project. Item number 14; Item code 146002.

The client will be responsible for advising GEC of their schedules for each project and, particularly, for any changes that may occur during the process. These rates will be effective through April, 2020, unless superseded in writing as a result of future negotiation or changes in the scope of work.

GEC is an Underutilized Disadvantaged Business Enterprise (UDBE) as defined and certified by Caltrans (UCP Firm Number: 36280). GEC is a women-owned business.

ANALYSIS OF WORK EFFORT

Based on the information provided to date, the following efforts need to be undertaken:

Investigation of biological resources of the site by performing the tasks which are detailed below.

TASK 1: PRE-CONSTRUCTION SURVEY FOR NESTING BIRDS (Specifications 14-6.03 A)

The pre-construction sweep will be completed by GEC using the required state and federal protocol.

This survey type is recommended for all potential habitats. A Presence-or-Absence Survey equivalent to that described below would be requested for habitats thought to be inside and outside suitable habitat for regulated species within the project area.

Prior to site clearing activities and staging of equipment, an experienced biologist in the specific species shall perform a pre-construction sweep.

Preconstruction surveys (2 days) = \$2,000.00.

TASK 2: EMPLOYEE EDUCATION FOR CONTRACTORS (Specifications 14-6.03A)

GEC will conduct an education program for all persons who will work on-site during Project implementation and construction. The program shall consist of a presentation from GEC that includes a discussion of the biology of the Covered Species, the habitat needs of the Covered Species, its status under CESA, and the management measures provided in the California Department of Fish and Wildlife 1600 agreement. A fact sheet containing this information shall also be prepared and distributed. The Orientation program shall consist of a brief presentation from a person knowledgeable about the biology of Desert tortoise, cactus, ocotillo, nesting birds including burrowing owl, sensitive plants, the terms of the permits, the Federal Endangered Species Act (FESA), and the California Endangered Species Act (CESA). The education program shall include a discussion of the biology of the desert tortoise, and burrowing owl, the habitat needs of these species, their status under FESA and/or CESA, and the specific measures that are being implemented during construction to protect these species. In addition, they shall be advised as to the potential impact to tortoises and potential penalties (up to \$25,000 in fines per violation and one year in prison) for taking a threatened species. Brochures, pamphlets, or information packets shall be produced which cover the potential sensitive species in the area. These publications will cover topics such as: Desert tortoise, cactus, ocotillo, nesting birds including burrowing owl, sensitive plants, Environmentally sensitive areas (ESA) and Species Protection Areas (SPA), minimizing disturbance of natural areas, disposal, staging and borrow sites and other related issues. GEC will serve as environmental-construction liaison and assist the foreman in discussing the requirements at the contractor's preconstruction conference. Upon completion of the program, employees shall sign a form stating that they attended the program and understand all protection measures. Employee will also receive a sticker and handout.

BIOLOGICAL RESOURCE INFORMATION PROGRAM (Specifications 14-6.03A)

Biological Resource Information Program includes specifications for preparing and presenting a Biological Resource Information Program to familiarize construction staff with regulated species and related requirements.

Workers must receive Biological Resource Information training before performing on-site work. Workers include laborers, tradesmen, material suppliers, equipment maintenance personnel, supervisors, foremen, office personnel, food vendors, and other personnel.

The Biological Resource Information Program includes:

Description of regulated species that may be affected by construction

- 2. Requirements for the protection of regulated species
- 3. Definition and consequences of "take"
- 4. What to do when you see a regulated species or a species that looks like a regulated species
- 5. Permit requirements to touch or move a regulated species
- 6. Identification of work area and ESA
- 7. Species Protection Area (SPA) requirements
- 8. Description of avoidance and minimization measures
- 9. Natural Resources Protection Plan
- 10. Description and general ecology of the regulated species
- Description of specific habitats used by the regulated species and their location
- 12. Handout to implement species protection measures that describe species, habitats, and actions

Biological Resource Information Program \$2,500.00

Stickers \$ 250.00

Handouts \$ 500.00 (for 200)

Employee Education Program \$500/training + PowerPoint presentation (assuming 1 presentation) = \$1,000.00

Total: \$4,250.00

TASK 3: CONSTRUCTION and COMPLIANCE MONITORING (Specifications 14-6.03A)

GEC will serve as environmental-construction liaison in monitoring the construction of the project. A log of all site visits will be kept to document compliance with environmental commitments. GEC shall coordinate potential concerns with the Resident Engineer to ensure compliance with environmental commitments. GEC shall be on-site daily while grubbing and grading are taking place to minimize take of the covered species, to check for compliance with all mitigation and avoidance measures, and to check all exclusion zones to ensure that signs, stakes, and fencing are intact and that human activities are restricted in these protective zones.

Biological Construction and Compliance Monitoring Task Cost (FULL DAY)\$950.00/day*

*inclusive of Travel and Other Direct costs. Assumes a maximum of 10hrs/day including travel time. Additional time will result in overtime (\$180.00/hr) charges in accordance with State and Federal laws. 100 working days for the project according to Specifications. Biological Monitoring assumes 10 days for ESA fence installation/clearing and grubbing; and, 90 days for compliance monitoring. Costs are per monitor provided. Depending on how work is staged additional monitors may be required.

100 days x \$950.00=\$95,000.00

Total for Item number 14; Item code 146002=\$101,250.00*

100%

*Total assumes 100 working days. Costs are per monitor provided. Depending on how work is staged additional monitors may be required those costs are not included in the line item as we do not know how the project will be staged. No costs have been included for those plans as they have not been developed and included in the specials for the project.

Bidding Assumptions

Cost and schedule estimates are based on our best judgment of the requirements known at the time of the proposal and can be influenced favorably or adversely by Client needs and other circumstances. GEC will endeavor to perform the services and accomplish the objectives within the estimated costs and schedule. However, if the scope of work or schedule changes, GEC, reserves the right to revise costs accordingly.

GEC assumes that, by receipt of notice to proceed, full access to the property will be provided by the Client, including keys to locked gates and advance notice to existing property tenants of our right of entry. GEC shall not be held responsible for work delays or cancellations caused by strikes, accidents, acts of God, delays imposed by the Client, or other delays beyond the control of GEC.

It is assumed that GEC can use and rely on the data and information contained in the project related documents provided by the Client. GEC, will not perform a technical review of these documents, and will not be responsible for the content or accuracy of these studies.

The Client will reimburse GEC for all costs, internal and external, including legal or other contractually related issue fees that are the result of any challenges to the work. These costs are not included in the cost proposal.

Change orders will be issued and signed by the Client and GEC, before starting additional work not provided for in the original proposal. If the Client's authorized representative is not available for a signature, the additional out-of-scope work will not commence until the change order is signed.

Thank you for the opportunity to collaborate with Peterson Chase General Engineering Construction Inc. on this project. If you have any questions regarding this proposal, please call me at (760) 777-1621.

Sincerely,

Teresa Gonzales President/CEO

Jeren Donzaes.
